PROFESSIONAL SUMMARY

Proficient Software Engineer with a Bachelor of Science in Software Engineering from Western Governors University (graduated July 2024). Solid foundation in front-end web development and growing proficiency in full-stack technologies. Passionate about creating impactful software solutions across client-facing and backend systems, ready to leverage my experience in a dynamic software engineering role.

EDUCATION

Bachelor of Science in Software Engineering   July 2024
Western Governors University

PROFESSIONAL EXPERIENCE

Web Developer & UI/UX Designer   Aug. 2018 - Present
Freelance

- **Nourish & Grow** (Aug. 2022 – Aug. 2023): Developed a mobile-friendly website using HTML5, CSS, and JavaScript, enhancing user engagement through UX/UI designs. Managed backend functionalities and integrated client feedback for continuous improvement.
- **Solder & Sew** (Jan. 2019 – Jun. 2021): Enhanced an e-commerce website and Etsy page using Agile methodologies, boosting performance and user interaction through strategic use of Google Ads and Analytics.
- **All Around Asphalt, LLC** (Apr. 2020 – Jun. 2021): Developed and maintained an online presence using SEO strategies, ensuring high performance and reliability of backend systems. Managed the full website lifecycle from design to deployment.
- **Mountain Oaks Boutique** (Aug. 2018 – Mar. 2020): Led the development of an e-commerce platform on Shopify, optimizing the frontend for user experience and ensuring seamless backend integration.
